

# MUSICAL EDUCATION PERFORMANCES

A JOURNEY OF CLASSICAL MUSIC DISCOVERY LED AND PERFORMED BY AN  
INTERNATIONALLY ACCLAIMED CONCERT PIANIST

BONNIE BROWN is a Franco-Australian concert pianist. Deeply committed to sharing her passion, she divides her time between a flourishing performing career and her activities as a music teacher and educator.

Bonnie Brown's mission is share the beauty of classical music with the widest possible audience, especially the next generation. Through her engaging and educational performances, each student will embark on a musical journey guided by a genuine concert pianist. Students will travel through time with the stories of the most famous composers, explore different periods and styles of music through a series of short classical pieces, and discover the subtle and moving palette of sounds of the piano. Each piece will be accompanied by storytelling, interactive activities, and demonstrations on the piano to enhance understanding and engagement.

This interactive experience will not only cultivate students' appreciation for music, but also contribute to their emotional and cerebral development. Introducing classical music to young minds opens doors to a world of artistic expression, creativity, and emotional depth. By exposing children to the beauty and complexity of classical compositions, we not only enrich their cultural understanding but also cultivate their appreciation for the arts. Moreover, fostering an early connection to classical music lays the groundwork for lifelong engagement, instilling values of curiosity, open-mindedness, and disciplined listening. By nurturing a new generation of classical music enthusiasts, we not only preserve this timeless art form but also contribute to the development of well-rounded individuals who are attuned to the beauty and depth of human expression.

Children will come out of this musical experience excited with a new understanding of music and stories to tell. This innovative pedagogical approach aims to enrich the musical educational offerings of your institution, and importantly highlight your school's engagement to the arts and the creative life of its students.

Finally, every student will be given a printed programme as a souvenir, with a full list of the music discovered and a QR code to an online listening list should they wish to continue their discovery at home with their families.

## PRACTICAL DETAILS

Each presentation lasts just under one hour including the performance, demonstrations, activities and Q&A, to be held at your school at a mutually convenient date and time.

## BONNIE BROWN

Concert Pianist & Musical Educator

Bonnie Brown has built a solid reputation based on her passion, professionalism, and ability to communicate the joys of music to children at the most crucial stage of their musical and intellectual development. As a virtuoso with a flourishing career, she offers a unique level of teaching that sets her apart from the majority of other music teachers.

With over 25 years of teaching experience, she attracts students from around the world for her piano instruction, music theory, and as a trainer for educators. She started as a specialist in music education for young children and young adults, and she now works with students ranging from 4 to 75 years old. From 2009 to 2012, she held the position of Director of the "Music and the Brain" program at the Montessori Bilingual School in Paris. She has taught hundreds of students from over 30 different nationalities and works with beginners as well as semi-professionals preparing for high-level auditions and exams. She provides private lessons and masterclasses both in France and abroad.
